

MENTAL HEALTH ANTHOLOGY: AGE DISPARITIES

CALL FOR ARTICLES/CREATIVE WORKS
Deadline: July 15, 2022

HPHR Journal (formerly *Harvard Public Health Review*) announces a call for submissions for an upcoming book-length anthology about mental health disparities among marginalized groups. This call is for articles and creative works related to people marginalized by their age, the youth and the elderly.

We are especially interested in research, evidence-based editorials, photo-essays, creative works (short stories, poetry, short screenplays, visual art, etc.), and/or written reflections leveraging innovative theoretical perspectives and methodologies, as follows:

- Mental health needs of intersectional age groups (e.g., BIPOC youth and elderly LGBTQ+ people)
- Suicide rates among the very old and very young
- Effects of social media use on youth mental health
- Social isolation in the time of COVID-19 for young people out of school and elderly people in nursing homes
- Trauma (e.g. adverse childhood experiences and nursing home and elder abuse)
- **Policy, regulatory, and other solutions to these mental health crises**
